Executive summary

This is an APPROXIMATE sample report. It shows the format and depth of a real AI Marketing Strategist plan — the numbers here are illustrative, not based on your account. Generate your own strategy to get grounded, personalised analysis, forecasts and one-click actions.

Summary

A balanced organic + paid plan focused on capturing bio-link visitors into your newsletter, then nurturing them toward your paid offer.

Marketing scorecard

Overall **62** / 100

REACH	ENGAGEMENT	CONVERSION	CONSISTENCY
70	66	48	64

- Strong reach relative to peers
- Conversion lags — add a capture block
- Posting cadence is slightly irregular

Diagnosis

- Your traffic is healthy but only a small share converts to subscribers.
- Engagement peaks midweek — concentrate posting there.
- Paid retargeting is currently unused, leaving warm traffic on the table.

Forecast — subscribers

PESSIMISTIC	REALISTIC	OPTIMISTIC
120	180	240

The realistic band assumes you ship the capture block and post 3x/week.

Organic plan

Weekly value thread — Instagram

Turn your best-performing link topics into a recurring content series.

- Repurpose your top link into a 5-slide carousel
- Add a clear CTA to your bio link
- Pin the post for the week

Sayzio features: Biolink, Analytics

Lead-magnet capture — Biolink

Add an email capture block above the fold to convert existing traffic.

- Add a Subscribe block
- Offer a one-page checklist
- Route confirmations via email

Paid plan

Retarget bio-link visitors — Instagram Ads

Budget: $\approx$ \$5/day

Warm audiences convert cheapest — retarget people who already clicked.

- Install your pixel
- Build a 30-day visitor audience
- Run a single-image subscribe ad

KPIs to watch

- New subscribers / week
- Bio-link click-through rate
- Cost per subscriber
